

# FIRING STICKS

*UPVC Pipe*

Plascorp manufactures and supply "Firing Sticks" from UPVC pipe.

The firing Sticks are primarily used to evenly distribute emulsion in the drill-holes to improve blasting efficiencies and subsequent improved face advance.

The firing sticks are 3.0m in length for ease of handing underground. The sticks are manufactured with a socket one end to enable joining in the drill-hole.

**Colour/** White

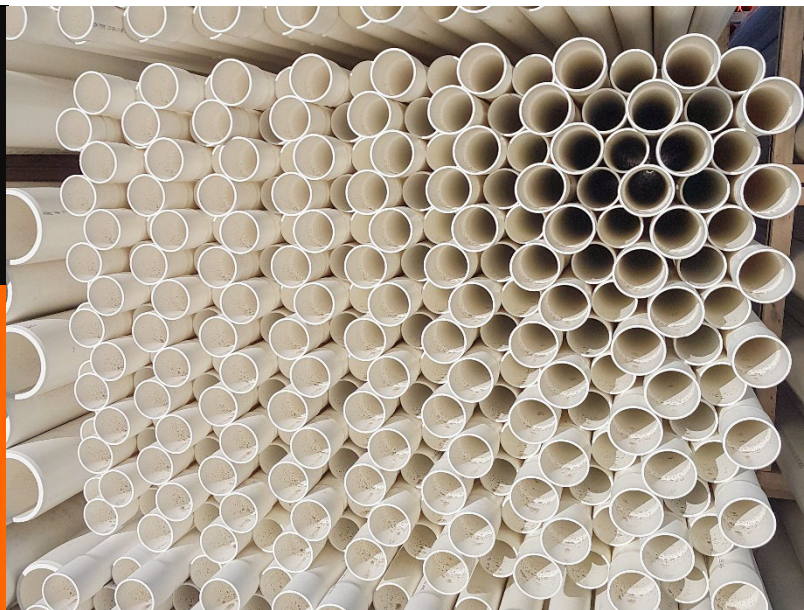

**Outer Diameter/** 60mm

**Pack size/** 245 lengths

**Length/** 3.0m

**Slots**

- Size/ 10mm-12mm wide and 170mm-200mm long
- 4 rows of 7 slots each
